1 Year Genetic Health Guarantee

We offer a one-year genetic health guarantee with our puppies that is effective for the first year after the date they were born.

Should an unexpected, fatal accident happen to the puppy while the puppy is in our care; OR if a puppy is diagnosed within the first two years of its life with any inherited, genetic or congenital disorder (received from its parents) which is considered by your vet to seriously impact the quality of life, is life threatening & your vet recommends euthanasia, OR requires expensive continuous medical treatment throughout the dog's life, we will replace the puppy at our discretion, with another puppy of comparable cost, breed etc. as soon as one becomes available.

In the event of a life-threatening illness or death, the buyer should submit proof of diagnosis from their vet by US mail or email to the breeder within 2 business days of the diagnosis. An autopsy will be performed at the buyer's expense. This health guarantee is void in the event of indeterminable or inconclusive diagnosis. If an autopsy is not performed, this guarantee is not valid & the puppy will not be replaced.

Also, if the condition does not warrant euthanasia & you are local, Golden Hill Doodles may contact their vet to provide medical services to remedy the situation.

This one-year guarantee covers some untimely deaths. At the discretion of Golden Hill Doodles, in such cases we would credit 50% of your original puppy's price (not including the cost of shipping) towards another puppy, as soon as one is available. Death certificate including microchip number is required, otherwise a 25% credit applies.

Not Covered by This Health Guarantee

We will not replace your puppy for any condition that can be corrected by your vet including, but not limited to: ear mites or ear infections, urinary tract infections, diarrhea, environmental factors, allergies, thyroid dysfunction, cancer, mange, autoimmune disorders, panosteitis (large breed growing pains/ growing too fast) yeast infections, dehydration, brucellosis, ingestion of foreign objects, poisoning, physical flaws, thin hair, hair loss, coat stains, tear stains, open fontanelles, retained puppy teeth, external or internal parasites, shipping colds, parvo, coccidia, giardia, cherry eye, kennel cough, Bordetella, pneumonia, flu, hypoglycemia, fungal infections, ringworm, bronchitis or upper respiratory infections.

Your vet will offer a medication to remedy the problem. Common puppy ailments are not covered by this guarantee. This guarantee is limited only to defects that are largely considered "life threatening." If the condition can be treated, it is **not** considered "life threatening."

We have our babies on a very closely monitored program for prevention of these problems, but no preventative is 100% effective & moving away from the birth home is stressful for any puppy... even if he or she only moves down the street & is hand delivered.

We are also only human & will apologize for any shortcomings on our part up front. We try to take the best care possible of our babies to ensure that they are completely healthy & happy! If your puppy shows any signs of sickness, please contact us. The health & happiness of our puppies is VERY important to us!

Minor issues such as overbite or underbite, undescended testicals, small hernias, ears that don't stand according to breed standard etc. are NOT covered by this guarantee! Panosteitis (large breed growing pains/ growing too fast) is not covered by this guarantee as the puppy will outgrow this. Acts of God, dog running away, environmental factors, behavioral problems, accidents & injury are not covered by this guarantee.

We cannot guarantee adult size, weight, ease of housebreaking, color, conformation, reproductive ability (regardless of potential), show qualities or abilities (regardless of potential), testicles descending, length, personality, behavior or temperament as housing, environment, lifestyle, feeding, rearing & treatment of puppies is controlled by the buyer. However, we do our best to estimate these things for you. Some puppies will lighten or darken as they get older. Also, how you feed them is very important. Follow your vet's advice for what brand to feed your puppy & how much to feed him or her.

Golden Hill Doodles will not replace a puppy that dies because the new owner waited too long to get medical help for their new puppy; if the puppy was dropped or injured maliciously; OR where neglect, carelessness or abuse by the new owner or misdiagnosis by their vet could have caused the problem.

This health guarantee does not cover any illness contracted after the puppy leaves our property.
